EUROPEAN IMMIGRATION

TO THE

CANADAS & WESTERN STATES!

—BY—

Train & Co's Line.

ENOCH TRAIN & CO., Proprietors of the Boston and Liverpool Line of Packets, hereby give notice that they have made extensive arrangements with the Western and Road Corporations, in connection with the Rail Roads in the Western States, and Steamboats on the Lakes, for the forwarding of *pre-paid passengers* from Boston to the Canadas, and Western States; and are now acting at their office in Boston, and at their *authorized agencies, pre paid certificates of passage* as follows:

| From Liverpool to Boston, | |

| " " Chicago, Ills. | 25 00 |
| " " St. Louis, Mo., | 25 00 |
| " " Milwaukee, Wis., | 25 00 |

Children under twelve years of age at the time of embarkation, five dollars less than the above; and infants under twelve months thirteen dollars less than the above named prices, to Boston or Albany, and other places in proportion; but we will not issue a pre-paid certificate for children under twelve years of age, unless accompanied by a passenger over twelve years, who must be paid for at the same time and on the same certificate.

The above prices embrace a steerage passage from Liverpool to Boston, by any of our Splendid Line of Packets; provisions at sea according to the undermentioned dietary scale; doctor's attendance and medicine on board when required; port charges at Boston, and all expenses of transportation of passengers and baggage from the ship at Boston, to the destination agreed upon.

In addition to any provisions which the passengers may themselves bring, the following quantities, at least, of water and provisions will be supplied to each steerage passenger, of twelve years of age and over, every week during the passage, commencing on the day of sailing, and at least three quarts of water per day:

Two oz. of Tea; 2 lbs. of Sugar; 5 lbs. of Oatmeal; 2½ lbs navy bread; 1 lb. wheat flour; 2 lbs rice.

Children under twelve years of age (not including infants,) are furnished with six pounds of bread stuffs per week, the usual allowance of water, and half allowance of Tea and Sugar.

As soon as our Liverpool House informs us per steamer of the names of pre-paid passengers embarked, we publish the same in the *Boston Pilot*, and also notify each purchaser of *pre-paid certificate*, either directly or through our agents.

On the arrival of any of our ships in the outer harbor, we immediately dispatch an agent on board, to give pre-paid passengers the necessary instructions regarding their route westward.

Bedding and utensils for eating and drinking, must be provided by passengers; and those going to the Canadas, or Western States, must furnish their own provisions from Boston.

TRAIN & CO., of Boston, inform those who take an interest in the welfare of Immigrants, that as owners of the only LIVERPOOL and BOSTON LINE OF PACKETS, they have determined that their Immigration business shall be conducted in their own name, on their own responsibility, and by themselves or their immediate servants.

In selling pitiful attention to the subjoined list of the Ships which comprise our Boston Line of Packets, we believe that its general reputation *as the first of American* packets in the European trade, is well established. The Thousands of Letters which have been sent by American Immigrants to their friends in every part of Europe, have borne ample testimony to the regularity and fine passage made by these Ships, and to the superior Health, Comfort and Safety which their Passengers have hitherto enjoyed. Many of them will be recognized as vessels which have gained the very highest character, by a succession of unusual rapid passages.

Packet Ships which are dispatched in this LINE:

These Ships, when in the Line, will from Boston on the 5th of each month, and from Liverpool each week during the year, and are distinguished by a Red Flag with a White Diamond.

Train & Co., Merchants, No. 5 India Buildings, Water St., Liverpool, Eng.

Train & Co.'s Passage Office, Nos. 115 & 119, Waterloo Road, Liverpool, Eng.

Train & Co., No. 121 St. Patrick Street, Cork, Ireland.

These magnificent Ships are ALL AMERICAN BUILT and constructed expressly for Packets. They are all new and of the FIRST Class, being built on the most improved principles and of the best materials. They possess all the modern improvements which produce no hardships or fare, as a superior system of lighting and ventilating, the very best Provisions, and a careful medical superintendence.

The Captains have been carefully selected as first-rate sailors and men of humanity, and an experienced Surgeon is attached to each Ship, and no expense is spared to render this the best and most popular conveyance to America. As Train & Co. have made such arrangements in Liverpool as will PROTECT their Passengers from the frauds and impositions sometimes practiced there, they believe that those who pre-pay passages cannot but see the advantage of being able to engage a Passage to Boston, on favorable terms, for a well known Line of Magnificent Packet Ships, and in this way avoid the disrespect, annoyance and delay which they so often experience, when they engage with Agents who are not so slightly connected with transient Ships.

As a proof that their Immigration business is conducted on principles uniformly Honorable and Liberal, and that they have been distinguished for the most exact fulfillment of all their engagements, we are permitted to refer to the very Rev. THEOBALD MATHEW, Capuchin.

We also subjoin the following testimonial from the Right Reverend JOHN BERNARD FITZPATRICK, D. D., Bishop, Cathedral, Boston.

(COPY.)

Boston, January 22d, 1849.

"I am happy to testify, from personal knowledge, that the firm of Ship Owners, known in this City of Boston, under the name of ENOCH TRAIN & CO., is composed of gentlemen of liberal and enlarged views, and that implicit reliance can be placed in their fidelity to accomplish all that they may promise, to those who have occasion to make any contract with them.

Capital over $165,000—in Cash and Premium Notes.

THIS Company offers unrivalled facilities for the insurance of Buildings and Personal Property against fire. The advantages are liberal—absolute security beyond the reach of fair contingencies, as the real estate insured is by law bound for the assessment made to cover losses beyond the power of evasion. Every person insured is a member of the Company, and entitled to one vote. The cost of insurance does not exceed one-third as much as in Stock Companies, saying nothing of the increased security and the incomparable ease with which losses are settled. During the last five years this Company have insured 2800 Policies, and made but 13 assessments, at a cost to the property insured, not exceeding two mills on the dollar. Its business is principally confined to this State.

Children under twelve years of age at the time of embarkation, five dollars less than the above; and infants under twelve months thirteen dollars less than the above-named prices, to Boston or Albany, and other places in proportion; but we will not issue a pre-paid certificate for children under twelve years of age, unless accompanied by a passenger over twelve years, who must be paid for at the same time and on the same certificate.

The above prices embrace a steerage passage from Liverpool to Boston, by any of our Splendid Line of Packets; provisions at sea according to the undermentioned dietary scale; doctor's attendance and medicine on board when required; port charges at Boston, and all expenses of transportation of passengers and baggage from the ship at Boston, to the destination agreed upon.

In addition to the provisions which the passengers may themselves bring, the following quantities, at least, of water and provisions will be supplied to each steerage passenger of twelve years of age and over, every week during the passage, commencing on the day of sailing, and at least three quarts of water per day:

Two oz. of Tea; 8 oz. of Sugar; 5 lbs. of Oatmeal; 2½ lbs rice; 2½ lbs. wheat flour; 2 lbs Raisins.

Children under twelve years of age (not including infants,) are furnished with six pounds of bread stuffs per week, the usual allowance of water, and half allowances of Tea and Sugar.

(As soon as our Liverpool House informs us per steamer of the names of *pre-paid* passengers embarked, we publish their names in the *Boston Pilot*, and also notify our Agents in Canada and Western States, that we have paid their passage, commencing on the day of sailing, and at least one of our *pre-paid certificates*, either directly or through our agents.

On the arrival of any of our ships in the outer harbor, we immediately dispatch an agent on board, to give pre-paid passengers the necessary instructions regarding their route westward.

Bedding and utensils for eating and drinking, must be provided by passengers; and those going to the Canadas, or Western States, must furnish their own provisions from Boston.

ENOCH TRAIN & CO., of Boston, inform those who take an interest in the welfare of immigrants, that as owners of the only LIVERPOOL and BOSTON LINE of PACKETS, they have determined that their immigration business shall be conducted in their own name, on their own responsibility, and by themselves or their immediate servants.

In calling public attention to the subjoined list of the Ships which compose our Boston Line of Packets, we believe that its general reputation *as the first of American Lines* is sufficiently well known and established. The Packets are all built of white oak, and are classed A 1 at Lloyd's. American Immigrants to their friends in every part of Europe, have borne ample testimony to the rapid and successful passages made by those Ships, and to the superior Health, Comfort and Safety which their Passengers enjoyed. Many of them will be recognized as vessels which have gained the very highest character, by a succession of unusual rapid passages.

These magnificent Ships are ALL AMERICAN BUILT and constructed expressly for Packets. They are all new and of the FIRST CLASS, being built on the most improved principles and of the best materials. They possess all the modern improvements which conduce to health and comfort, as a superior system of lighting and ventilating, the very best Provisions, and a careful medical superintendence.

The Captains have been carefully selected as first-rate sailors and men of humanity, and an experienced Surgeon is attached to each Ship, and will be required to remain after this the best and most popular conveyance to America. As Train & Co. have made such arrangements in Liverpool as will PROTECT their Passengers from the frauds and impositions sometimes practiced there, they believe that those who pre-pay passages cannot but see the advantage of being able to engage with a Responsible House, on favorable terms, for a well known Line of Magnificent Packet Ships, and in this way avoid the disrespect, annoyance and delay which they so often experience, when they engage with Agents who are but slightly connected with transient Ships.

As a proof that their Immigration business is conducted on principles uniformly Honorable and Humane, and that they have been distinguished for the most exact fulfilment of all their engagements, we are permitted to refer to the very Rev. THEOBALD MATHEW, Cork, Ireland.

We publish the following testimonial from the Right Reverend JOHN BERNARD FITZPATRICK, D. D., Bishop, Cathedral, Boston.

(COPY.)

Boston, January 23d, 1849.

"I am happy to testify, from personal knowledge, that the firm of Ship Owners, known in this City of Boston, under the name of ENOCH TRAIN & CO., is composed of gentlemen of refined and acknowledged honor, and that implicit reliance can be placed in their fidelity to accomplish all that they may promise, to those who have occasion to make any contract with them.

### NOTICE TO BUSINESS MEN.

The circulation of the DAILY SENTINEL is by far the largest of any daily paper published in the State; and has peculiar advantages to Merchants, Mechanics and others as a medium of advertising.

The Weekly Sentinel has now a circulation of over two thousand copies, which is constantly and rapidly increasing. Notices put in the Weekly at the same rates as in the Daily.

Notices appear in the Tri-Weekly Sentinel without additional charge.

The Daily is $6 a year, of the Tri-Weekly $3, and of the Weekly one dollar per year, payable in advance.

### The News.

The news by the *Baltic*, which we issued yesterday in several extras during the day, and which we give in full this morning, is very interesting. There seems to be scarcely a doubt remaining that Europe is on the immediate verge of a general war, and all of the great powers seem to be making preparations for the conflict.

The rise in breadstuffs which accompanies the intelligence is the natural consequence of the demand for breadstuffs abroad, who do not like to trust themselves to large operations when a war may intervene and settle the affair beyond peradventure.

The news is also that the Senate has adopted the Nebraska Bill, adding thereto a clause referring it to the people.

### The Nebraska Bill—Mr. Everett's Speech.

The New York *Mirror*, one of the greyist of the "conservative" papers, and one of the staunchest supporters of the Compromise measures of 1850, publishes Mr. Everett's speech against Douglas's Nebraska project, with the following comments:

MR. EVERETT'S SPEECH.—We publish entire to-day a corrected copy of Mr. Everett's speech against the Nebraska Bill. We commend it to the careful perusal of our readers, as a calm and generous argument, with here and there a passage of genuine eloquence. But with all deference to the talents of the distinguished Senator, we feel compelled to say that his speech contains less than we had looked for; and that the chain of more conclusive logic in the letter of our correspondent, "G. B. W.," published to-day's *Mirror*, than we have yet found in the combined efforts of the Senate in opposition to the bill before it.

The letter signed "G. B. W.," above referred to, is a very able argument against the project, dealing with the following paragraph;

"The Nebraska Bill, in its present form, cannot pass; if it does, it will be right to conclude that our chosen fools or knaves to legislate for us. We might as well pronounce republican government a failure, if we cannot find men wise or honest enough to decide properly a case, so simple and so vitally important, to the best interests of the nation, as the present. We might as well submit to despotism, absolutism, or whatever else comes us from legislation so entirely void of sense and principle.

"The conclusion suggested in the first sentence of this paragraph forced itself upon the minds of the people. The bare circumstance of the entertainment by Congress of the project to open Nebraska to slavery, has convinced them of its truth, and it is not necessary to await the passage of the bill.

"Every day's delay in Congress upon this Nebraska question is another day gained, another inch of ground left for freedom; another hope that the friends of all who love free institutions will rally at Washington in such earnest tones as will frighten the doughfaces from their position, and convince them that they had better go straight from Washington to Nebraska, or Utah, or the Sandwich Islands, or anywhere, rather than to return to meet their indignant constituents, after the passage of such a bill.

"The people of the free North-west are moving. Will their representatives will falter?

### Worse and Worse.

We intended to give our readers the proceedings of Congress for the last week, for the reason that we did not get them in time. Letters and papers that were mailed in Madison last Friday morning, and which we should have received the next day, we received last night, being three days coming the distance of forty miles.—Not that an editor can know the inconveniences and annoyances of filling a paper with matter a week to ten days old. And we know that it is through the carelessness of the Post Master at this place, or at Madison, that our mail is delayed. We do not know which is to blame, but one can remedy the fault if they will. Will it be done?—*Portage City Rep.*

Not within our memory, has there been so general complaint throughout the North-west of carelessness and mis-management of the mails. There seems to be no safety in sending letters or papers to the mails, the chances are decidedly against their ever arriving at their destination; or if they do, after a while, they come to whom they are addressed, it is generally after some remarkable journeys. Our readers are constantly complaining of the non-reception of letters of the sending of which they have advised. Booksellers fail to receive their packages of magazines. Our own experience in these cases has been particularly provoking. Only two weeks since, we sent proof sheets of a job which we have in press, addressed to the proper person, in the interior of the state, and it was not till last week that they made their appearance, and that by way of New York city!—At the same time, packages of our weekly paper, containing some 350 numbers for, and to be distributed from, the Madison Post Office, came missing. Last week, they arrived back at our office, having been on a three or four weeks tour to Dubuque and the country beyond,—probably having thoroughly explored the much talked of Nebraska Territory.

Where the blame should be placed we do not undertake to say, but it is high time that Government should look after the mail service of this part of our country, which is supposed by some to belong to the United States. Either let Uncle Sam attend to the business which he is paid to manage or cease to do it in our own way.

### Young Men's Association.

We copy the following account from the Buffalo *Commercial*, of the annual meeting of the Young Men's Association of that city; and we do it for the purpose of showing our citizens how the thing is done down east, and to urge them to furnish all the aid and comfort in their power to our own association, which has made so good a step forward during the present winter, and promises so much lasting good to our city:

There was quite a spirited contest at the election of officers of the Young Men's Association last evening, and nearly 800 votes were polled, and over $200 received for dues. Both tickets were unexceptionable, and the election of either would have insured spirited and able officers for the ensuing year. The one headed by Mr. Walbridge was chosen, with two exceptions, and the majorities varied from 1 to 7. The following are, therefore, the officers for the ensuing year:

*For President*—Wells D. Walbridge.
*1st Vice President*—John H. Bliss.
*2d Vice President*—Lucian Hawley.
*3d Vice President*—James W. Newman.
*Corresponding Secretary*—Everard Palmer.
*Recording Secretary*—Perry P. Rogers.
*Treasurer*—Wm. F. Wardwell.
*Managers*—Silas H. Fish, John P. Lockwood, Rufus L. Howard, Millard P. Fillmore, John G. Hall, James D. Sawyer, Norton A. Halbert, Charles Babb, George R. Kibbe, John H. Coleman.

The report of the Treasurer shows that the affairs of the Association have thriven under the present excellent management.

The receipts in the treasury for the year exceed by more than $800 those of any former year, being.....$8,347 77
Current Expenses.....4,463 77
Paid for Books and Binding.....1,338, 14
Paid for Newspapers and Periodicals.....202 49
Balance in Treasury.....2,877 36

The course of lectures has been admirably arranged and has added much to the onward progress of the institution. Under the new management, the association cannot fail to continue on in its prosperous condition.—*Buff. Com.*

### The North Western Iron Company.

This Company was organized on the 15th instant, at Mayville, Wisconsin, under a very liberal charter, granted by the present Legislature. Upon opening the books of subscription, fifty-three thousand dollars was subscribed to the capital stock, and at a meeting of the stockholders which immediately followed, the following gentlemen were elected a board of directors for the ensuing year, viz:

JAMES LUDINGTON, JONAS TOWER,
JACOB L. BEAN, CHARLES BURCHARD,
FREDERICK WILKES.

The Board organized by appointing J. L. BEAN, Prest. CHAS. BURCHARD, Vice Pres't, JAMES Ludington, Treas, and FRED. WILKES, Secy, and the adoption of the necessary bye-laws. JONAS TOWER, an experienced Iron Master, is superintendent of the works.

The North Western Iron Company have purchased the property of the old Wisconsin Iron Company, consisting of Ore Beds, Water Power, Furnace, fixtures, &c. The Furnace has been put in complete repair, and is now in successful operation, turning out about six tons of pig iron each twenty-four hours, of a quality not inferior to any metal brought into this market.

Much has been said of the abundance of the ore at Iron Ridge, and of the facility with which it may be mined or raised for use. But nothing we have yet seen in print comes up to the reality. The mining at the Company's Ore Bed at Iron Ridge is performed with the same, and even greater facility than earth is loaded and removed at the banks where grading is carried on in this city. The thickness of the *bed* at the present opening is from seventeen to twenty feet, and the ore is found pure and unmixed with obnoxious materials, so that nothing remains but to load it into carts or wagons with shovels, in a condition ready for the furnace's mouth, without the necessity of roasting, or any other preparatory process except the introduction of the proper *fluxes*. At the present time this ore is delivered at the Furnace, a distance of more than three miles from the bed, at fifty cents per ton, gross: which without doubt is a lower rate than ore is delivered *at any other furnace in the United States.*

The completion of the La Crosse and Milwaukee Rail Road to within a mile and a half of this ore, which will be effected during the coming summer, will bring the iron region into immediate proximity to Milwaukee, and will make this the most suitable point for the erection of Rolling Mills, and other works upon the reduction of this vast mineral wealth to the innumerable uses and purposes of civilized life. Why, indeed, should Wisconsin be drained of her active capital to import Railroad Iron from England and Wales, when she possesses the means of producing it at home at a less price than it costs in the different foreign countries from whence it is imported?

We hear of several other Iron Companies that are about organizing under Charters, and from our knowledge of the gentlemen whose names are connected with them, we entertain no doubt but that the *talking* on this important subject has been done, and that *action* has now commenced in real earnest.

The North Western Iron Company are now delivering their iron in this city, and it is their intention to continue to forward it as fast as the constant operation of their present furnace, and of two additional ones which they propose to erect this spring, will enable them to produce it.

NEBRASKA MEETING AT JANESVILLE. The people of Janesville propose to hold a meeting on Wednesday evening of this week to express their sentiments upon the Nebraska project of Senator Douglas, and to give the "little giant" still another evidence of the manner in which his "vaulting ambition hath o'erleped itself." They will be glad to meet any who will join them from our city on that occasion.

A REMARKABLE CHURCH OR THEATELLER.—At the late Legislative Festival at Chicago, Gov. REYNOLDS, Speaker of the House, in the course of a eulogy of Chicago, said that—"He had seen nothing in Europe which so filled him with admiration as the Second Presbyterian Church on Wabash Avenue."

OLD VERMONT.—The Franklin County, Vt. *Herald*, of the Green Mountain State, says;

"There is but one city in the State, and not one soldier. We have no police, and not a murder has been committed in this State within the last ten years. We have no museums, no crystal palaces, but we have homes, genuine homes, that are the centre of the world to their inmates, for which the father works, votes and talks—where the mother controls, educates, labors and loves—where she rears men, scholars and patriots."

ST. LOUIS 48 HOURS FROM NEW YORK!—Passengers who left New York on Sunday evening of last week, by the Hudson River, New York Central, and Great Western route, reached St. Louis in *forty-eight* hours from ocean to river. That will do for winter work.

Correspondence of the Sentinel.

### The M. & M. Railroad.

Waukesha, Feb. 17, '54.

*Messrs. Editors:*

Some time ago an article appeared in one of our papers, condemning the M. & M. R. R. and its acting officers in a manner that I thought was uncalled for. It is true that, during the very cold weather, several accidents occurred, but not from the neglect of the superintendent as alledged. The strength of Mr. John Frost broke the rails, and the consequence was a turn off of the cars.

I have known the operations of the Road for nearly four years, and have been intimately acquainted with its operations, and must say in plain words, that I have always found the present superintendent (Mr. Brodhead) ready and willing to accommodate and do all in his power for the best interests of all concerned—and also, both conductors and engineers have always shewn a disposition to do right, and to me, acted kindly and gentlemanly in every respect.

It is to be regretted that under the present arrangement, we are not accommodated as we have been, for now we cannot get to town and trade and return the same day, as heretofore, but in a little while I have no doubt this will be remedied and we will be placed in our former *position*.

NEBRASKA MEETING AT JANESVILLE. The people of Janesville propose to hold a meeting on Wednesday evening of this week to express their sentiments upon the Nebraska project of Senator Douglas, and to give the "little giant" still another evidence of the manner in which his "vaulting ambition hath o'erleped itself." They will be glad to meet any who will join them from our city on that occasion.

Therefore, I esteem it unkind and unjust to place such remarks before the public, condemning those who have the charge of the M. & M. R. R. and its cars, without at least a plain statement of the facts in the case.

I have nothing more in view than to give my voice in the matter, and say what I think is just, so that the passing public may see both sides as well as one.

I am Gentlemen, yours,
most truly, &c.
P.

ANDREW E. ELMORE.—The name of this gentlemen has been mentioned in connection with the office of United States Senator, to succeed Mr. Walker. He is spoken of as a man of high character and ability, and every way qualified for that important office. He is an inflexible democrat of the right stamp, and judging from the manner in which his friends speak of him, has the faculty of attaching them to him with "hooks of steel"—a combination of good qualities not often met with, and which certainly should not be overlooked by those upon whom devolves the responsibility of choosing the Senator.—*Oshkosh Courier.*

☞See what mutations time brings about; It does not take a great while in this country, out west, and in Wisconsin, for whigs to whip around, and travel to the top round of the ladder of "democracy." There is a good deal of truth in what the *Courier* says of Mr. Elmore, the gentleman from Mukwonago county.

**1001.**—The Janesville *Standard* "takes on" dreadfully about the supposing letting down of the dignity of the order in the admission of Hon. Mr. Baker, of Dane. If the editor had witnessed the solemnities of initiation, he would not have demurred. The editor of the Green Bay *Advocate*, who was present, truly says;

"Owing to his high standing and official position, the solemnities of his initiation were truly imposing. No one can enter the Hall occupied by that ancient Order, but are at once impressed with the solemn grandeur which prevails; the mind cannot but reverence the irresistible impressions created by its ancient rites and ceremonies,

[We publish the following pointed article relative to the Canal Land Mortgages, as coming from one who is well acquainted with the facts to which he alludes, and in hopes that its suggestions may aid the committee (which the Assembly has already appointed) in arriving at all the facts. At the same time we trust that our state officers present and past, may be able to explain the condition of things satisfactorily to the mortgagors and the public generally.]

### The Milwaukee and Rock River Canal Land Mortgages.

The last Madison *Journal*, in noticing so much of the Report of the late Secretary of State as relates to the above named Mortgages, has the annexed pertinent remarks, which we commend to the attention of the Wisconsin reader. The settlers on the Canal Lands have suffered enough in controversies to get the title to their lands, to be relieved from any further trouble in relation to them. They thought when they had obtained their deeds and given mortgages, they had made one certain step towards perfecting what they had been ten long years contending for, and when they paid their mortgages to (as they thought) the proper officers or againts of the State, they flattered themselves they had attained the good they had been so long struggling to gain. Many of them now find they have lost the money they have paid, and their lands still stand encumbered by the mortgages given for the purchase money. The whole affair should go before an efficient committee of the Legislature and undergo a most searching investigation, and the investigation should extend to the balance due from Mr. Merrill, and have the whole put in a train for adjustment. Let it be referred to a committee which has no member on it who has any personal reasons for pocketing and running away with the papers, and thus smothering the exposure, and perhaps baulking the aspirations of some special political friend. Let the committee among others summon before it Chas. R. Dakin, Esq., of Waukesha Co. and ascertain how his mortgages to the State, on his farm on Nagawicka Lake, were settled—who made the negociations—gave the receipts—received the money—or if money was not paid, what was the consideration he gave for the paper the State held against him? The committee should consult the records of Waukesha Co., and ascertain by what authority Wm. A. Barstow received and receipted as "Agent for the State" a considerable sum of money from Mr. Jessup, of Summit, in payment of one of these mortgages, the June after he left the office of Secretary of State, and retained the money until the attention of the Legislature was called to it last winter by a report from Attorney General Estabrook, and then only paid a part of it into the Treasury. It should also enquire and let the people know why the name of one of the Senators from this county (not Mr. McGarry) is attached to the receipts for money to many of the mortgages, and what has become of the money. The committee could also find papers of interest to it, in pursuing this subject, in the hands of William Brown, Chas. H. Larkin, Smith Arnold, and E. Cramer, Esq., of this city, Chas. Hart, Esq., of Wauwatosa, and Gov. Holmes of Jefferson.

We understand there are petitions in circulation, all over the Canal Land District, asking for an investigation of this subject by the Legislature, and praying for the relief of the injured settlers.

From this point of view, these attacks upon Mr. Coon, seem to us unfair. Mr. C., might with the same propriety be charged with the exclusive agency of putting afloat Mr. J. F. Kimball's worthless Bank of America money on the Public works near Appleton last winter. Let a committee be appointed that will do its duty, and bring all the facts in relation to these mortgages to the light, and let the people of the State judge who are at fault for the present condition of affairs.—If it is not Mr. Coon, is it Mr. Barstow, or Mr. Hunter, or is it all of them? Let the people of the state have the facts. If all is right, investigation—good, fair, and earnest investigation—can do no harm. If the matter has been managed wrong, the public certainly should know it; and it would ill become the members of the Legislature to endeavor to cover gross public wrongs.

The following is the *Journal's* artice:

That part of the Report most demanding immediate attention, however, is that which relates to the Rock River Canal Land Mortgages. It is generally known that when Wisconsin sung into the Union, a large sum was due the state for lands sold, and payments secured by mortgage. By an act of the legislature passed July 26th, 1848, the Register of Canal Lands at Milwaukee was ordered to deliver over to the Secretary of State all books, mortgages, &c. in his office—and there was at least a partial compliance—but the Secretary made no record showing the number or amount of mortgages so delivered. These mortgages were subsequently delivered over to S. Park Coon, Attorney General, for collection, and no receipt or voucher taken therefor. The only evidence of what papers he received of the Secretary, is an endorsement dated May 3d, 1851, giving notice that payment was required upon certain mortgages—sixty-six in number. These mortgages were not handed over by Coon to his successor, Estabrook, but were retained by him until a short time before election last fall, when twenty-seven were returned uncollected. A very few paid up, and had their mortgages cancelled, but twenty four are now out and not accounted for, and the Secretary, in his Report, asks the legislature "to determine how far payments made by mortgagors to persons other than the Treasurer shall be allowed in liquidation of these mortgages, as evidence of such payments are frequently being exhibited to this department, and the cancellation of mortgages demanded based upon." Thus it seems that twenty-four mortgages are missing, and that persons are applying to have their's cancelled, exhibiting evidence of having paid! Who have such persons paid to?—Has S. Park Coon or any other unauthorized person, been receiving and receipting public money, and conversing it to their own use?—Have unsuspecting persons been duped into any such proceeding? We leave it for lawyers to decide whether such an act would amount to embezzlement, or obtaining money under false pretences.

We trust the legislature will do its duty in the premises, and not allow such acts to be smothered by committees. It is evident that a gross fraud exists somewhere. Who has got this money? Who gave receipts for it, and by what authority? Has the state, or have citizens been defrauded? These are questions demanding prompt investigation, and copies of all such pretended receipts made should be public.

### Nebraska—Spirit of the Press.

We have taken some pains this week, to collect the tone of the Press in Wisconsin, on the Nebraska question, and this we shall continue to do while this question is pending. It is a question of no ordinary magnitude, as it will be found in its influence on parties in the first place, and as a practical measure in the second place. And it is to us a matter of astonishment, how men professing a love for freedom, can have two minds upon this subject. Stability in our institutions is certainly a matter of great importance, and it is not fitting that the policy of this government should be constantly fluctuating. The Democratic party professed to feel this importance, and in their convention, passed a resolution pledging the party to the compromises, and in opposition to agitation. And now what? Who is the author of this agitation? Is it Democratic to make a resolution one year and violate it the next? The Democratic party were the authors of the Missouri compromise, and assisted to make, and endorsed the compromises of 1850. Now, is it time to change them? If so, who is authorized to give the word to "right about face?" We shall not obey, certainly, until we learn who is authorized, or in other words, who is captain.—*Elkhorn Reporter Dem.*

CANALS AND RAILROADS OF NEW YORK.—Mr. MCALPINE, State Engineer of New York, in his late Report, thus sums up the number of miles of canals, railroads, and coast, lake, and river navigation of the Empire State:

| | | |
|---|---|---|
| Of coast navigation on the Atlantic and great lakes is | 800 | miles |
| Of navigable rivers and minor lakes | 450 | " |
| Of canals and improved water channels, including those in progress | 1000 | " |
| Of railroads completed | 2600 | " |
| Of railroads in progress | 1000 | " |
| Making a total of | 5850 | " |

This gives an average of less than three square miles for each mile in length of Railroad and water lines within the State.

☞ "CANDOR AND TRUTH" will have seen by this time that his wants have been attended to, fully.

### GLEANINGS FROM THE MAILS.

A NEBRASKA SIGN FROM CONNECTICUT.—The Hartford Times, the leading administration paper in Connecticut, comes out "tooth and nail" against Douglas and his Nebraska vaulting.

☞A new Presbyterian house of worship in St Louis was dedicated on the 5th inst., which cost $70,000, and that amount was paid out by Mr. H. D. Bacon, of the firm of Page & Bacon, of that city, without calling on the Society for a dollar. At a meeting of the Church and Society to consider this debt, Mr. Bacon proposed to give $30,000, and in three days the amount was raised and the Church set free from debt.

PORTRAIT OF THE "WEE GIANT."—The Toledo Blade draws the following portrait of this base betrayer of freedom.

"Among the harlequins in the presidental arena Douglas excels. No characteristic but impudence reccommends this man. But his impudence is sublime. No speech, no effort, no stroke of policy marks this man as anything above mediocrity. He is every way an adventurer. He pretends to be a citizen of Chicago, Illinois, yet he is rarely seen there. He has no domicil there. He has a tenement on the Lake shore where he keeps a tenant. His plantation and his negroes are in Mississippi. His overseer gave a barbecue to his negroes which was trumpeted over the country a while ago. We helped to blow that trumpet, and gave him the benefit of our columns to bring him the fame of which he is so covetous. If any of his friends want us to give him a lift to the presidency, we will publish that barbecue story again free, gratis, for nothing. Judging from some demonstrations we should judge his home and his heart were where his plantation and his "niggers" are.

There is a girl out west so all fired pretty that she has to wear around her waist a spike belt, similar to those the farmers put on colts heads to break them from sucking. This is the only means of keeping the young bucks from hugging her to death, and even with this shield it is said there is not a young gent in the neighborhood that does not bear spike prints on his arms.

A correspondent of the London *Times* says, speaking of England: "We have expended $150,000,000 (£30,000,000, on a navy, and have no gone yet. If our government would get Collins, Stevens, or some of our great shipbuilders, our really great men, to build its new ships, there would be some hope of progress and improvement."

INSURANCE LOSSES.—The New York *Courier* says that during the last three months nearly one thousand vessels have suffered damage at sea, and during the same period the losses sustained by the Wall street insurance offices exceed *four millions five hundred thousand dollars.* Many vessels that have been exposed to the gales which swept the ocean in December and January have yet to be heard from, and when heard from, may help to swell the enormous sum which is known to have been absorbed by losses. In New York five insurance companies have rendered statements covering a portion of the season which has proved so disastrous to maritime interests.—Of the five companies the Atlantic declares a dividend of 16 per cent., the Union 21 per cent., and the Atlas 20 per cent., the Astor Company declared no dividend, and the General Mutual Company is closing its business. In Boston none of the Mutual Companies have declared any dividends on the business of the past year, and the largest company there shows a deficit of some $114,000

A REMARKABLE PETITION.—A petition from Mysore was received a short time ago, in England, addressed "to all the societies of wise gentlemen in England," asking that a school may be established there, in which the English language may be taught. Three thousand three hundred and forty names were appended to this petition, in eight languages. Mysore is not nominally under British rule; those who petition are Hindoos and Mussulmen; they petition in behalf of all the inhabitants of the city; the petition is forwarded by a missionary, and they understand well that if a school shall be established, it will be conducted on Christian principles. What a change, it shows, is taking place in the feelings of the people of India, in respect both to education and to Christianity.

### To Milwaukee, Again.

We last week addressed a few thoughts to the commercial Metropolis of our State, upon the importance of securing an immediate railroad connexion with the Mississippi. We dealt then, exclusively, in generalities. We propose this week to give a few particulars illustrative of the same subject.

We do not suppose it will be possible to build the Milwaukee and Mississippi Railroad all at once; but we do suppose that by a little extra exertion it might be made to reach the Wisconsin River early next season. A connection can then be formed with the Mississippi by means of a line of light-draught steamers, which can ply on the Wisconsin daily, from Prairie du Chien to Arena.

But will it be of any use to Milwaukee to form this broken connection, partly by land and partly by water, with the Mississippi? Will it pay, for the Milwaukeans to make any extra efforts—expend any extra dimes—to hasten such a connection? We wish to treat this question solely with reference to the interests of Milwaukee—for the purposes of this article we ignore the existence of any other place in the State deserving any prosperity from any source. This view of the case will be intelligible to the Milwaukeans—they are more accustomed to such logic than any other. We suppose the groceries and heavy goods generally, which are to be consumed up this way, will continue to come up the Mississippi, for the most part at least; but the dry goods which are used in the north-western part of Wisconsin, the northern part of Iowa, and the whole of Minnesota, are already purchased at New York, Boston and Philadelphia.—This dry goods trade for this great region may be secured by Milwaukee the moment she completes any sort of a connection with the Mississippi. If the merchants of Milwaukee will call some morning on Gen. King and ask that gentleman for a peep into his north-western exchanges, he will doubtless gather up and submit to their inspection, two or three bushels of good looking newspapers; when, by glancing through the advertising columns of the St. Anthony, St. Paul, Hudson, La Crosse, Lansing, Prairie du Chien and Garnaville papers they can form some estimate of the amount of business which they are throwing away by their negligence in the matter of opening an avenue of trade from their city to the region where these advertising columns are printed. This trade, as we said two or three weeks ago, is now carried on through all sorts of expensive, slow, and roundabout channels. Milwaukee can secure it easily and cheaply by the means above indicated, and until she has thus secured it, she will not begin to realize the full measure of her resources and her prosperity. The subject is not yet exhausted. We propose, another week, to give Milwaukee a few ideas upon the prospective, undeveloped resources of the region wherever she may, if she pleases, become the commercial mistress.—*Crawford Co. Courier.*

CLOSE RUNNING—WAUSHARA A LITTLE AHEAD!—Our friends in various parts of the State seem to have been making a quiet little race, for their own amusement (and *our* great satisfaction) to see how large a list of subscribers to the *Weekly Sentinel* they can get at their respective offices. Besides a host of packages of 20 and over, we have quite a number running beyond 35. Of these, Waushara is yet ahead, the list at that office being 48. Columbia comes next with 44, and Waupun has 43. We send 38 to Whitewater, and as the same thriving place gets a dozen dailies and several tri-weeklies, it is fairly entitled to "honorable mention." Our subscription list for all the editions has never before increased so rapidly as within the last 3 months.

### POLICE COURT.---February 20.

LITTLE JEMMY THE PEDLER IN TROUBLE. A warrant was issued against William Jones for assault and battery upon James Barton, who is known every where as "little Jemmy the apple pedler." The assult and battery was clearly proved by three witnesses, and consisted in Jones having kicked and struck the complainant without the slightest cause. The defendant tried hard to make it appear that the complainant was watching him on the corner of Michigan and East Water streets, to steal some money or something from him, and that he shoved him away from him, but didn't hurt him; that the complainant and a gang of boys were around stealing &c. adding—"you see your honor this here case is just got up, to get a dollar or two out of me.—Its nothing but spite of two or three individuals, and you can guess who they are."

The defendant further tried to make it appear that it was a combination of boys against him, and that "folks that would not bring up their children *respectably* and without letting them *steal* ought to be ashamed of it; they ought to give their boys a good trashing," To the court I hope your honor won't take any advantage of me, you see the way I'm *situated!*" The defendant was fined ten dollars and costs amounting to $14 69. *Jones.* "This goes to the county, does it not, your honor? *Court.* Yes sir *Jones!* Well, if you get such a customer as this every day you'll get the county rich very soon. It'll amount to a number of thousands." *Jones* here counted out the money and walking up to the court said "*You're* got no spite against me, have you sir." *Court.* No sir. I've spite against no one. *Jones.* I didn't know but you owed me a little *debt. Court.* "I want you to understand that you must behave yourself while here." The money was here paid out to the court. Mr. Jones remarks were peculiarly amusing to the bystanders who were at times convulsed with laughter; particularly at one remark, that he had a long account to "settle with this county before he left it;" this was taken perhaps in a different sense from which he intended it. The idea that the little pedler was attempting to extort money from Mr. Jones, or the assertion that the pedler would steal, are both ridiculous in the extreme.

Michael Schultz was arrested by constable Megarrigle for assault and battery upon Frederick A. Wheeler. Case adjourned till this morning.

A warrant was issued against Peter J. Undorf, for having threatened to kill Peter Kline, his wife and son, on the 18th of February. The warrant was placed in the hands of constable Megarrigle for service.

Y. M. A. LECTURE BY CHANCELLOR LATHROP.—It will be seen by the advertisement that the *last* lecture of the winter course is to be delivered at Young's Hall, this Thursday evening. Those who have enjoyed the pleasure of listening to the Chancellor before, will need no urging of ours to call them out on this occasion. To those who have not heard him, we have no hesitation in giving assurance that a ripe scholar, and interesting speaker will stand before them on this evening, and treat a subject with which he is especially familiar. We hope the Association will have a bumper at parting. Its managers deserve it, and a crowded audience will gratify itself by giving it.

LECTURES ON SPIRITUALISM.—Our city seems to be the grand focus of *Koppism* just now, and by way of carrying out the joke, Judge EDMONDS, of New York, is expected to lecture here on the next Saturday and Sunday evenings.

SUDDEN DEATH.—A man named Patrick Burns died suddenly on Saturday evening. He was well during the day, with the exception of a fit, from which he appeared for a time to rally, but died in the evening.

☞A man named John Smith was brought into the office of the Superintendents of the poor, with his leg broken and his foot badly frozen.—He was found lying in the road, a short distance from the city—appeared to have been intoxicated on Sunday night.

BINDERY.—E. GRIS, late foreman at Niedecken's, has concluded to go it alone, and makes his bow to the public in our advertising columns, inviting it (or them?) to call and see him and his workmanship, over Kneeland & Hull's Bank, 219 East Water St.

BIVALVES!—HOOD offers for sale at auction, to-morrow evening, a large lot of oysters. N. C.

### Fire---Eight Horses burned, $1700 worth of Property destroyed.

A fire broke out on Sunday night, about eleven o'clock, in a barn owned and occupied by Jerry Haley, situated on the block between Van Buren and Jackson street, and on the south side of Michigan Street. The first discovery of the fire took place about eleven o'clock, in the loft above the barn. The barn contained at the time eleven horses and although every effort was made to save them, only three were saved, eight being consumed in the barn. But one set of harness was saved. A large bin of oats, together with other appurtenances to a stable and barn were also destroyed. The eight horses burnt were the most valuable of those owned by Mr. Haley.

The cause of the fire is not known. We hear from several that Haley was a careful man around his barn, and that the others employed were never permitted to go into the barn with a light except in a glass lantern. The first that was seen of the fire was in the loft, into which no person had been for upwards of three hours, and no one with a light during that day.

While on the ground early on Monday morning we were told that a short time before the fire was discovered the gas lamps were put out—not by the man employed for that purpose—and also that one man had communicated to the City Marshal that he knew who had set fire to the barn. If these statements are true, they should be followed up, and the incendiary if possible arrested. The property destroyed is valued at $1,700. Another small barn close to Mr. Haley's was burnt, the horse &c., being saved. The owner's name was Brian Boylin.

REAL ESTATE SALE.—Mr. A. L. KANE has sold to T. P. COLLINGBOURNE the south 20 feet of lot 3 in block 9, 1st Ward, for $1500. This exhibits a remarkable rise in the value of property in that quarter of the city, as well as elsewhere.

A FORTUNE.—Anybody who is anxious to make his fortune will find one offered cheap in an advertisement in our paper, headed "$3000." Don't all speak at once!

OIL AND CORN.—Mr. CURTIS' mill, on the water power, is in full operation again, and he is ready for all calls in his line. It will be seen that he has facilities for reducing coarse grains to a manageable condition in short order.

ARREST.—A man named Charles Malengro and a woman named Caroline Malengro, were arrested yesterday by under Sheriff Connover on a *capias*. They were indicted by the grand jury for Incest.

LOST OR STOLEN.—On Saturday evening, a gentleman's gray travelling shawl. The finder will be liberally rewarded by leaving it at this office.

MASONIC BALL.—The Masonic fraternity have been making grand preparations for their Annual Ball, which comes off at Metropolitan Hall this evening. BERGEN prepares the supper in his best style, and everything is got up in first rate order. There will be a merry time of it.

MUSICAL SOCIETY'S CONCERT.—By one of those accidents which will happen in the best families, the programme of this Concert was left out of our paper yesterday morning. We regret the accident, but presume that the Concert was none the worse for it.

☞We understand that Rev. Mr. Klyn, pastor of the Dutch Reformed Church of this city, has had a call to take charge of a church at Grand Rapids, Mich.—*Free Democrat.*

### REVIEW OF THE MARKETS.

FOR THE WEEK ENDING FEB. 21.

OFFICE OF THE DAILY SENTINEL,
MILWAUKEE, FEBRUARY 21, 1854.

RECEIPTS BY RAILROAD, Feb. 18: 7,075 bus wheat 2,675 do. barley, 2,676 do. oats, 237 do. corn, 35 do rye, 23 do. beans, 25 do. grass seed, 438 hogs, 49 sacks (5,000 lbs.) meal, 55 sacks (3,000 lbs.) feed, 615 sacks (42,125 lbs.) dried apples, 1,213 bbls flour, 35 do. highwines, 2,000 lbs. hides, 52 pelts, lot merchandize.

Business has continued good in all departments of trade during the past week, and transactions in breadstuffs have been made to a considerable amount, while large quantities have been added to the stock on hand. There seem to be no diminution in the amount coming in by railroad and teams, and we hear that many farmers are still holding back nearly their whole crop of wheat. Prices of grain have fluctuated considerably, and we quote at figures below than those of last Tuesday. Two steamers have been in and bringing news of a decline.

The *Baltic*, whose news we published yesterday, reports flour at 3 shillings less than the highe t figures yet obtained, the decline being 66 to 1s, since the last preceding circulars; and this is ascribed to the unwillingness of dealers to purchase in the present uncertain state of affairs. Still the general news as to the Eastern question, is to the effect that war is almost certain, and it is probable that millers and others prefer to await the developements of the next few days, before o erating to any large extent.

The effect of the *Baltic's* news here, was only to cause buyers to hold off and we make no alteration in our figures having heard of no transactions to warrant it.

Pork still continues to come in freely, and to obtain good prices. The stock of pork packed here this season must amount now to full 50,000 barrels, and the season is not over yet.

We annex our usual Price Current, corrected to date:

BARRELS.—Packing $5; Flour 32@35, and fair demand.

BUTTER.—We quote fair at 12@14c. Prime for table butter brings 16@18c.

GRAIN—Wheat has continued to pour in rapidly, the receipts of the week reaching over 37,000 bushels, and the stations on the railroad are kept full of lots awaiting transportation. Dealers held back yesterday, and business inactive under the effect of the *Baltic's* news. We quote best winter at $1,25@1,28, club 1,22@1,23, spring 1,20@1,21.

BARLEY, large receipts, and sales at 51@52c.

Hides are in very active demand, it bridg now ascertained that the supply is, and will be very short. The vas number of cattle sent across the plains last year has very much diminished the winter receipts of slaughter hides and prices must rule high.

We have had a very slender attendance at the opening of the week, but toward the close there was an increase of millers and dealers of this neighborhood, but all operated with much caution.

Sales of wheat were effected more easily, but entirely of a retail character, and holders had to submit to a decline of 1d@3d per 70 lbs on the prices obtained on Friday.

Altogether, the grain market was irregular, and the same may be said of the flour trade, as to extent of business done, and prices were 6d@1s per barrel under those of our last.

Baltimore and Philadelphia were procurable at 42s. 6d. from warehouse, and 42s from ship. Indian corn dull—sales at a decline of 1s per 480 lbs. The improved feeling advised by last mail has not been sustained.

Flour and wheat had declined 3s per bbl and 3s per 70 lbs from the highest point.

Indian Corn has receded 2s to 3s.

It is said that the Servian government, yielding to the suggestion of the Russian Consulate at Belgrade, will refuse to accept the two firmans of the Sultan, unless Russia gives her consent.

*Paris, Tuesday.*—All the rumors of ill success of Orloff's mission are now confirmed, and it is not likely he will prolong his stay, but he will leave directly for St. Petersburg. Foreseeing the same rebuff at Berlin he will refrain from visiting that capital.

St. Petersburg, Feb. 29th.

It is said that the Emperor, who is fully aware of the position in which he is placed, will endeavor to avoid a general conflict if he can only preserve the honor and the rights. The influence of Count Nesselrode is again in the ascendant.

It is also said that the Czar is about to write an autograph letter to the Queen of England, in which he will endeavor to prove he has not been the aggressor.

A Vienna correspondent, telegraph, that Orloff was to leave for Russia, probably on Wednesday.

The combined fleets were at Beycos Bay on the 27th January. Six ships, under convoy of a Turkish steamer, with troops, had gone into the Black Sea.

An imperial ukase confirms the summons to arms of all the reserves and soldiers on furlough

The Paris Bourse. The Englishs funds early in the day showed a tendency to rise; 3s closed at 86¾@¾ per cents at 91¾.

It is a positive fact that several Cunard steamers are taken up by Government to carry troops to Constantinople; 6000 men go from England and others will be taken up at various Stations about 9,000 men will soon be collected to form part of the first expedition.

There is no doubt that a brigade of guards will form part of the expedition. The 40th regiment, which was under orders for Australia, leaving all the old soldiers at home, whose time would be out in a short time, is now to hold itself in readiness for foreign service, taking all the best men and leaving all the young soldiers and recruits at home.

Belgium.—Kisleff, late Russian envoy, arrived at Brussels on Tuesday. It is understood that 4 vessels, originally taken up by government to convey troops from Clyde to Malta and from thence to the West Indies, have been taken up on monthly charters, so that they may be available to proceed to any point on the shortest notice.

ARRIVAL OF THE

## BALTIC.

### Decline in Breadstuffs!

### Ambassadors Ordered off from St Petersburg!

### WAR ABOUT TO COMMENCE!

New York, Feb. 20.

The *Baltic* arrived at 3 this morning.

Flour has declined 1s—wheat 3d—corn 6d.

The British and French Ministers are ordered to leave St. Petersburg. The Czar's proposal rejected—negotiations broken off—war about to commence. A. & W.

*Reported for the Sentinel.*

New York, Feb. 20.

The *Baltic* arrived below last night at 9 o'clock, with dates to the 6th.

The Europa arrived out on the 6th.

The Czar's last proposals are rejected and negotiations are broken off. The Russian Ministers have left London and Paris, and instructions have been sent to the English and French Ministers to leave St. Petersburg.

France and England are making open preparations for war.

Cotton was active and tendency upward.

Breadstuffs had slightly declined.

Richardson & Bro's circular says:

Liverpool Feb. 3.

We have had a very slender attendance at the opening of the week, but toward the close there was an increase of millers and dealers of this neighborhood, but all operated with much caution.

Sales of wheat were effected more easily, but entirely of a retail character, and holders had to submit to a decline of 2@3d per 70 lbs on the prices obtained on Friday.

Altogether, the grain market was irregular, and the same may be said of the flour trade, as to extent of business done, and prices were 6dals per barrel under those of our last.

Baltimore and Philadelphia were procurable at 42s 6d. from warehouse, and 42s from ship. Indian corn dull—sales at a decline of 1s per 480 lbs. The improved feeling advised by last mail has not been sustained.

Flour and wheat had declined 3s per bbl and is per 70 lbs from the highest point.

Indian Corn has receded 2s to 3s.

It is said that the Servian government, yielding to the suggestion of the Russian Consulate at Belgrade, will refuse to accept the two firmans of the Sultan, unless Russia gives her consent.

*Paris, Tuesday.*—All the rumors of ill success of Seibel's mission are now confirmed, and it is not likely he will prolong his stay, but he will leave directly for St. Petersburg. Foreseeing the same rebuff at Berlin he will refrain from visiting that capital.

St. Petersburg, Feb. 29th.

It is said that the Emperor, who is fully aware of the position in which he is placed, will endeavor to avoid a general conflict if he can only preserve his honor and his rights. The influence of Count Nesselrode is again in the ascendant.

It is also said that the Czar is about to write an autograph letter to the Queen of England, in which he will endeavor to prove he has not been the aggressor.

A Vienna correspondent, telegraph, that Orloff was to leave for Russia, probably on Wednesday.

The combined fleets were at Beycos Bay on the 27th January. Six ships, under convoy of a Turkish steamer, with troops, had gone into the Black Sea.

An imperial ukase confirms the summons to arms of all the reserves and soldiers on furlough

The Paris Bourse. The English funds early in the day showed a tendency to rise; 3s closed at 88⅝ per cents at 91½.

It is a positive fact that several Cunard steamers are taken up by Government to carry troops to Constantinople; 6000 men go from England and others will be taken up at various Stations about 10,000 men will soon be collected to form part of the first expedition.

There is no doubt that a brigade of guards will form part of the expedition. The 40th regiment, which was under orders for Australia, leaving all the old soldiers at home, whose time would be out in a short time, is now to hold itself in readiness for foreign service, taking all the best men and leaving all the young soldiers and recruits at home.

Belgium.—Kidaf, late Russian envoy, arrived at Brussels on Tuesday. It is understood that 4 vessels, originally taken up by government to convey troops from Clyde to Malta and from thence to the West Indies, have been taken up on monthly charters, so that they may be available to proceed to any point on the shortest notice.

### LATER BY THE BALTIC.

Interesting Details of Foreign News.

Intelligence from the—seat of war indicates that important operations are at hand there. The news of the most vital consequence is the open preparations from war made by England and France.

One half of the British Revenue Coast Guard force, are ordered to be drafted into the Navy This gives 2,890 men.

The Police of Paris have broken up a Russian club. This club as secret agents of Russia, received their orders to circulate reports on the Bourse and on the streets. No arrests were made.

French papers are ordered not to speak of the movements of troops, or other preparations of war, except on terms set forth in the *Moniteur*,

Among other significant orders recently given by the French government, is one for three millions of cannon balls. Orders are given to the French Atlantic squadron to proceed to Toulon, supposed to take troops on board. Russian fleets are understood to be concentrating at Kalafat. A private letter says the return of the allied fleets was in consequence of the scarcity of provisions at Sinope, but this is doubtful.

Admiral Chase is appointed to command one devision of the Baltic fleet, the command-in-chief has not yet been given; the names of Admiral Seymour as chief, with Sir Chas. Napier and Lord Donwiddie under him are mentioned.

Omar Pacha has effected a most important movement, having crossed the Danube with 5000 men, and divided the Russian Army, the right wing of which is at Gorgova, the left at Galatia, the center at Bucharest. Omar crossed in person at Oltenitza, and at the last accounts was but a days distant from Bucharest, where the Russian force is weak.

The death of Silvio Pellico is announced. It is expected that Smith O'Brien will be pardoned.—McHenry quotes present imports of bacon cleared off with good demand for prime, but inferior lower; beef and pork very languid.

Great New England Remedy
FOR
Coughs, Colds and all Lung Complaints!!!
HUNTER'S CELEBRATED
Pulmonary Balsam or Cough Syrup,
PREPARED BY
CURTIS & PERKINS, DRUGGISTS,
BANGOR, MAINE.

Proof Positive—Skeptics Read.—Testimony! Testimony!!
HAMPDEN, Feb. 24, 1846.
Messrs. J. Curtis, Jr., & Co.—GENTLEMEN,
I have a word to say to you in favor of Hunter's Cough Syrup. I have the past year used in my practice two dozen bottles of it, which I find of you, and every bottle has done good. For eight years past, I have been in the practice of Medicine, and I never have found any thing so well calculated to operate so favorably in all diseases of the lungs as that is. I have known a hard, distressing cough, cured in forty-eight hours, by using (in broken doses) one bottle of it. One case I particularly recollect, of a man who was thought to have a seated consumption, troubled with a hard distressing cough. I let him have one bottle, and he had two more of your agent, Mr. Wildmore. After using the 3 bottles, he has become well, and now labors every day. He told me lately, that Hunter's Cough Syrup was the means and only means of his cure. I have given it to infants, to children, to adults, and have the pleasure to inform you that it has done good in every case. I shall do all in my power to recommend it in the cases above named, not wholly for your benefit, but for the benefit of suffering humanity.

LIVER COMPLAINT.
JAUNDICE, DYSPEPSIA, CHRONIC OR NERVOUS DEBILITY, DISEASE OF THE KIDNEYS, AND
all diseases
arising from a Disordered Liver or Stomach, such as Constipation, Inward Piles, Fullness of Blood to the Head, Acidity of the Stomach, Nausea, Heartburn, Disgust for Food, Fullness or Weight in the Stomach, Sour Eructations, Sinking or Fluttering at the Pit of the Stomach, Swimming of the Head, Hurried and Difficult Breathing, Fluttering at the Heart, Choking or Suffocating Sensations when in a Lying Posture, Dimness of Vision, Dots or Webs before the sight, Fever and Dull Pain in the Head, DEFICIENCY OF PERSPIRATION, Yellowness of the Skin and Eyes, Pain in the Side, Back, Chest, Limbs, &c., Sudden flushes of Heat, Burning in the Flesh, Constant Imaginings of Evil, and great Depression of Spirits, CAN BE EFFECTUALLY CURED BY DR. HOOFLAND'S CELEBRATED GERMAN
BITTERS,
Prepared by Doct. C. M. Jackson,
AT THE GERMAN MEDICINE STORE,
120 Arch st., Philadelphia.
Their power over the above diseases is not excelled, if equalled, by any other preparation in the United States, as the statements contained in many cases after skillful physicians had failed.
These Bitters are worthy the attention of invalids. Possessing great virtues in the rectification of diseases of the Liver and Stomach, they are entitled to the most searching powers in weakness and affections of the digestive organs, they are withal safe, certain and pleasant.

READ AND BE CONVINCED.
[From the Boston Bee.]
The Editor said, Dec. 22d: "Dr. Hoofland's celebrated German Bitters, for the cure of Liver Complaint, Jaundice, Dyspepsia, Chronic or Nervous Debility, is deservedly one of the most popular medicines of the day. These Bitters have been used by thousands, and a friend at our elbow says he has himself received an effectual and permanent cure of Liver Complaint from the use of the Remedy. We are convinced that, in the case of these Bitters, the patient constantly gains strength and vigor, a fact worthy of great consideration. They are pleasant in taste and smell, and can be used by persons with the most delicate stomachs with safety, under any circumstances. We are speaking from experience, and to the afflicted we advise their use."

SCOTT'S WEEKLY.
One of the best literary papers published, said, August 2 "Dr. HOOFLAND'S GERMAN BITTERS, manufactured by Dr Jackson, are now recommended by some of the most prominent members of the faculty, as an article of much efficacy in cases of female weakness. As such it is the case, we would advise all mothers to obtain a bottle, and thus save themselves much sickness. Persons of debilitated constitution will find these Bitters advantageous to health, as we know from experience the salutary effect they have upon weaklysystems."

MORE EVIDENCE.
The Hon. C. D. HINELINE, Mayor of the City of Camden N. J., says:
"HOOFLAND'S GERMAN BITTERS.—We have seen many flattering notices of this medicine, and the source from which the came induced us to make inquiry respecting its merits. From inquiry we were persuaded to use it, and must say we found it sparkling in accident upon diseases of the liver and digestive organs, and the powerful influence it exerts upon nervous prostration is really surprising. It calms and strengthens the nerves, bringing them into a state of repose, and induces refreshing sleep.
"If this medicine was more generally used, we are satisfied there would be less sickness, as from the stomach, liver, and nervous system the great majority of real and imaginary diseases emanate. Now is the time in a healthy condition, and you can bid defiance to epidemics generally.—This extraordinary medicine we would advise our friends who are afflicted, to give a trial—it will recommend itself. It should, in fact, be in every family. No other medicine can produce such evidences of merit."
Evidence upon evidence has been received (like the foregoing) from all sections of the United States for three years, and the strongest testimony in its favor, is, that there is more of it used in the practice of the regular Physicians of Philadelphia, than of other medicines combined, a fact that can easily be established, and fully proving that a superior medicine preparation will meet with their quiet approval when presented even in this form.
Those who are afflicted with cure Liver Complaint and Dyspepsia, no one can doubt, after using it as directed. It acts specifically upon the stomach and liver—it is preferable to calomel in all bilious diseases—the effect is immediate. They can be administered to females or infants with safety and reliable benefit, at any time.
LOOK WELL TO THE MARKS OF THE GENUINE.
They have the written signature of C. M. JACKSON upon the wrapper, and the name blown in the bottle, without which they are spurious.

PATENT MEDICINES.

DR. URBAN'S
ANTI-BACCHANALIAN ELIXIR:
A Safe and Sure Remedy for the Cure of
INTEMPERANCE.

IT is not in the least injurious to the system. It is pleasant to the taste, and will cure the hardest cases of intemperance. We *warrant* it, in all cases, if taken according to directions. It destroys the desire for all ardent spirits when strictly taken according to directions, and will restore the individual to the same state of sobriety in which he was before he ever drank a drop of the ardent, and he will not have the least desire for intoxicating drinks.
Intemperance is a disease; and as such the greater the excess in drinking, the more speedily is the disease developed, and to such the Elixer is presented as the balm of Gilead—the oil of consolation, peace and perfect restoration.
The more fully developed is the disease the more satisfactory and powerful the effects of this Elixir, at once destroying the appetite for spirits, and restoring the tone of the stomach to as healthy an action as it was before drinking a drop of ardent spirits; and when intemperance has assumed this diseased form, reason is measurably destroyed, the will to a certain extent becomes ungovernable, until obedience many have passed the bounds of sober restraint, and though they may desire, in their sober moments, to abandon the use of that which is so rapidly destroying their base, they cannot, unaided, and no aid has ever been tendered such, with success, until the discovery of Dr. Urban's nervous filling Anti-Bacchanalian Elixer; since which time none are left without excuse, as the means necessary to destroy the taste, and again enthrone reason, bringing the will into perfect subjection, by extracting the poisonous sting and lingering fire of the soldier, are placed within every man's reach; these, therefore, who hereafter fill the grave of the drunkard must do so by choice, and not of necessity—it matters not how dear it you may now be.
As the Elixir is a most powerful purifyer of the blood, the seat of all diseases, it has been met with great success, and is highly recommended in cases of Delirium Tremens, Dyspepsia, Epilepsy, Neuralgia, Liver Complaints, General Debility, Piles, and all kinds of Fevers. It is the best alterative known.
☞ The Anti-Bacchanalian is neatly put up and labelled, with full directions accompanying each bottle. Price 50 per bottle. On the receipt of the above sum it will be sent, free of charge, to any part of the United States. All letters to be prepaid. To be had from all the principal Druggists in the United States.

## Dr. Urban's Vegetable Fever and AGUE POWDERS:
*The only sure remedy ever known for Chills and Fever, an warranted to cure, in all cases, if taken according to directions.*

It cures, when taken according to directions, in TWENTY MINUTES, leaving no Fever after the Chill; very seldom requiring more than ONE DOSE to make a PERMANENT CURE. A great number of cases, from two to five years standing, have been CURED with the FIRST DOSE and the Chill has never, as yet, returned. The beauty of this medicine is, that it stops the Chill in TWENTY MINUTES or less, and the patient will be entirely clear from Fever after the Chill, which is not the case with any other medicine in use. It has superseded all other preparations wherever it has been introduced.
Read what the Editors of the Louisville Democrat say from their own observation:
"Dr Urban's medicine for the cure of chills and fever has effected some wonderful cures in our own midst. A young man who has resided several years in Louisiana, reached New Albany a few weeks since, went immediately under medically worn out physically, with long continued chills and fever. He made a short stay at the house of Judge Smith, where his father resides, and left for his former home in Louisiana. Having exhausted almost every remedy known to the medical profession, he procured a box of the Ague Powders, and in fact, all the common diseases of the Head. Its action is speedy, and its immediate effect is delightful.

The most obstinate Cases of Catarrh
have been cured by it instanter. Those who are afflicted with the disease are sure to find immediate relief in its use. Its really invaluable Medicine is fast gaining popularity and public confidence. Where it has once been used, IT SUPERSEDES EVERYTHING ELSE!!
